

The Future of Children

A child's life may be blighted by the diseases of youth, such as rickets, which is characterized by weak bones or crooked spine, and inability to stand or walk steadily, or Marasmus, that wasting disease characterized by paleness and emaciation, or Scrofula, a constitutional disease of the glands and neck.

Scott's Emulsion

of pure Cod-Liver Oil with Hypophosphites of Lime and Soda will prevent and cure these diseases. It supplies just the material needed to form strong bones, rich red blood and solid flesh. It will also reach the infant through the mother's milk, and be of the greatest benefit to both.

HOW TO CATCH A COLD.

The Various Ways in Which It May Be Accomplished.

The various ways in which a cold may be brought on are thus described by Dr. J. H. Knebel: "A little knife blade of air blowing in through a crack in a window upon some part of the body will chill that part, and the blood vessels of that region will become contracted, affecting somewhere in the interior of the body an area in reflex relation with this portion of the surface of the body.

"For instance, the blood vessels of the skin of the top of the shoulders and the chest are associated with the blood vessels of the lungs, so that whatever happens to the blood vessels of the skin of the shoulders and chest happens also to the blood vessels of the lungs. If there is a contraction of the blood vessels of the back of the neck, there will be a contraction of the blood vessels of the nose and throat, and if there is a contraction of the blood vessels of the top of the shoulders and the shoulder blades there will also be a contraction of the blood vessels of the lungs. When the influence of the cold is continued, this contraction is followed by congestion.

"When one puts his hands into cold water for a few minutes, they are first pale and then red. This is reaction. The longer the application and the more intense the degree of cold the greater will be the contraction and the congestion. So if the back of the neck is exposed for a long time to the influence of cold one is likely to have a cold in the nose and throat. If the shoulder blades and the top of the shoulders are exposed, one is likely to take cold in the lungs and suffer from congestion of the lungs. If the cold is long continued, it may cause not only a congestion, but an inflammation of the nose or the lungs.

"So if the bottoms of the feet become wet or chilled a weakness of the bladder may result if there has ever been a trouble there or a weakness of the stomach if there has been a catarrh of that organ."—Good Health.

BABY'S PRETTY CURLS.

Filled Them Off in a Car and Embarrassed Her Mother.

A well-dressed woman with a beautiful baby in her arms attracted the attention of all the passengers on a Germantown car. Every one was fascinated by the baby's pretty and smiling face and particularly by two golden curls which hung down her cheeks.

After awhile the child became nervous and began to tug at one of the curls which protruded from her head. The woman, presumably her mother, quickly stopped her, but a few moments later she looked out of the window. No sooner was her face turned than the child seized her breast with both hands and pulled it off. It offered little resistance, but to the astonishment of every one on the car the curls came with it, and the supposed golden haired baby showed that in reality its head was without the semblance of a hair.

The child swung the bonnet to and fro and laughingly held it up for the inspection of the other passengers. It was almost a minute before the woman turned around. When she saw that the baby had done her face, she, too, without a word she picked up the child and walked sedately out of the car. When last seen, she was tramping down Spring Garden street with the baby tucked under her arm like a sack of oats, but still holding tightly to the bonnet and crying. "See my pretty hair?"—Philadelphia Times.

THE NURSERY.

Babies should be carried alternately on either arm. It always carried on one side they may grow crooked.

No child suffering from eczema should ever be washed with soap, as it is too irritating. Use instead oatmeal gruel.

Give children all the fruit and vegetables you can afford and arrange that they be eaten in the early part of the day.

TEXAS TOWNS STILL MENACED BY FLOOD

Rivers Continue to Rise at Many Places.

WEATHER THREATENING

Rain Expected and Greater Damage Feared—Indian Territory Towns in Danger—Reported That Tornado Has Visited Lebanon.

DALLAS, April 10.—The flood situation in Texas this morning remains practically the same as yesterday. Most of the rivers appear to be at a stand, more rises and rain are feared, however, as the weather is cloudy, murky and generally threatening.

The outlook in the Indian Territory is serious. A bulletin from Denison at 9:30 o'clock this morning says the Red river there is slowly rising, but no immediate danger is feared. The worst outlook in the Indian Territory is that the Canadian river is tremendously high and its rising waters are nearly up to the tracks of the Missouri, Kansas and Texas railroad and many thousands of dollars worth of property is in danger.

Reports from the town of LaGrange and Fayette county this morning show that the water in the Colorado river continues to rise. The lower part of LaGrange is inundated. No loss of life is reported from these sections.

It is rumored here that the town of Lebanon, in Boone county, was swept by a tornado early this morning and is in a wrecked condition. Owing to lack of communication nothing can be learned as to the effect of the storm.

From Wharton county come reports that everything is under water, although no loss of life is reported.

The Brazos river is rising rapidly, inundating a vast acreage and doing much damage to property.

THE DRESSY WOMAN.

Tailor made silk coats, jackets and basque bodices are highly fashionable both here and abroad.

Ribbon entre deux of lace and clusters of the tucking form some of the pretty dress sleeves seen on evening toilets for debutantes.

The natty Eton and bolero jacket styles rival the belted, round waisted models among spring tailor costumes being made ready for Easter and post Easter wear.

The handiest of the new lace blouse, blouse or other choice or fancy pattern are shaped in circular form for both skirt and bodice garments.

The stylish fancy belt and wide and expensive chain accessories keep the round waist very prominent among favored modes. They are youthful looking when worn by graceful and slender women.

A transparent black hat is trimmed with large black ostrich plumes and an expensive gold buckle dotted with faceted opals. Round the crown is a roll of folded heliotrope tulle delicately veiled with black point de gaze lace.

Light colored gloves are introduced this season, which in a great degree will supersede the pure white ones which have so long enjoyed the status of universal approval. Likewise, downy, since gray, which is a pretty shade of tan, a light tint of soft brown and one of blue are among the new colors.

The newest ornamental buttons for silk, satin or etalon draped waists are those of French brilliants of various small sizes. They are either surrounded with a new three-fold line of black enamel or else with a setting of diamonds. They fasten to the bodice by means of gold chains and rings.—New York Post.

What It Takes.

"A camera, I grant you, takes pictures," said the amateur. "Yes, but it's funny! When you have to buy plates and such fixtures, you find that it also takes money."—Philadelphia Press.

Nothing New.

He emerged from the ruins of the wrecked train casually, dusted his clothing and yawned.

"You appear to take the thing coolly," remarked a doctor.

"With you," he replied, "You see, I appear very comfortable in a rocky country."—Philadelphia North American.

CAUTION

There is nothing "just as good" as Duffy's Pure Malt Whiskey. A dealer who says so is thinking of his profit—nothing more. Of course when a remedy has been before the public so long, has been recommended and prescribed by doctors, and carried true blessings of health to so many thousands of human beings, it is bound to be a success. They are only able, however, to imitate the bottle and label. No one can imitate the product. The process is known to manufacturers alone. Ask for the genuine, to free injurious substitutes. See that our seal over the cork is unbroken, and that the bottle has on it the government medicine stamp. We have found cases where unscrupulous dealers have refilled our bottles, so we wish to caution our patrons against accepting some cheap imitation in our bottles.

THE PEDAGOGUE.

In Nebraska there are 141 log school-houses, 517 built of sod, one of baled straw and one of steel.

In the Danish high schools the cost of educating students, including everything except clothing, is \$65 a year.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

WINE OF CARDUI

Woman's Crowning Virtue.

Boston, Mo., July 27.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I did not want to submit to that and was so dependent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE

Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.
